

The 561 Face of Celebrity-Chic Spa Services

Alluring Image Medspa & Wellness

Romy Mittler

Romy Mittler has always had a passion for making people feel good about themselves. Her training as a licensed Esthetician and Makeup Artist provided the tools and know-how to enhance her clients' looks and self esteem.

"Giving my clients the opportunity to see their beauty on the outside that matches their inner glow is what my Alluring Image Medspa & Wellness is all about. As a single mom, I had to build my brand and launch my business by myself for the first time. I've had to figure it out as I went along and learn to perfect it," she explains. "I am thrilled with the outcome."

Under the direction of Medical Director Dr. Shaker Hamadiya, board certified in Preventative Medicine/Aesthetics, the chic and inviting Spa welcomes clients to unbutton, unwind and beautify in a tranquil, yet entertaining environment.

Celebrity themed treatments and packages cover the gamut from Botox to fillers, P-Shot, O-Shot, Vampire facelift, hair restoration and facials to a fitness cocoon infrared sauna with temperatures up to 200°. IV therapy cocktails are administered in the comfort of chaise lounges with virtual reality masks that can be worn to transport clients to Bora Bora as they revel in relaxation.

"Clients can come for treatments in the evening after work or the gym. And our Saturday Brunch and Botox, complete with Mimosas and crudités is a weekend favorite that really sets us apart," Romy adds.
